...The Powerful Solution

NOVAPURGE *Ready-Mix* Products...use as received.

NP-1500

Specially formulated for lower viscosity resins ... HCl scavenging formulation with no special additive required ... use with resins processed up to 425°F.

Use with...

- EVA
- Flexible PVC
- GP (crystal) Styrene
- LDPE

NP-2500

General purpose grade for purging most resins processed up to 550°F. ... HCl scavenging formulation.

Use with...

- ABS
- Acetate
- Acrylic
- BAREX
- Butyrate
- CELCON
- DELRIN
- EAA/EMAA
- EVOH(Eval)
- K-Resin
- KRATON
- KYNAR
- NORYL
- NYLON
- Polycarbonate
- Polyester
- Polyethylene
- Polypropylene
- Polystyrene
- Polyurethane
- Propionate
- PVC
- SAN
- SARAN
- SURLYN
- TPE's & TPR's

NP-3500

Special formulation for high temperature and high viscosity resins processed up to 800°F ... scavenges HCl to avoid equipment damage.

Use with...

- Fluoropolymers
- HDPE (Below 0.7 MI)
- NORYL
- PEEK
- Polyarylate
- RYTON
- Polysulfone
- TORLON
- ULTEM
- XYDAR
- Polypropylene (Below 5.0 MI)
- Rigid PVC (Shore D Hardness = 80 & up)

NOVAPURGE *Concentrates*...mix with resin.

NP-500

Universal Concentrate...in powdered form. Needs to be mixed with a carrier resin prior to use. Use with all thermoplastic resins...contact NOVACHEM for details.

NP-600

Pelletized Concentrate...in easy-to-feed pellet form. Needs to be mixed with a carrier resin prior to use. Use with all thermoplastic resins...contact NOVACHEM for details.
